Fundamental architecture changes/improvements The skill and monster systems are now completely data-driven.. A skill now may have synergy Bonuses (similar to masteries) applied by putting points into other skills.. In Nightmare and Hell difficulties monster damages have generally been increased -- dramatically in some cases.. This was accomplished by improving monster stats (hp, ac, etc) and by boosting their AI/behavior in NM and Hell difficulties (that is, by making decisions more often and by simply moving faster).
